INCONSISTENCIES OF THE ALLOPATHIC TREATMENT

Reports of the Doings of the Michigan (allopathic) State Medical Society at Their Annual Meeting in Flint, Mich., Taken from the Detroit Free Press, with

Additions, Digressions and Remarks by the Author of Them

"After the Mayor's address President Ranney introduced the venerable Dr. N. S. Davis of Chicago, distinguished medical author and the founder of the American Medical Association and ex-President of the International Medical Congress. (See Detroit Free Press, May 6, third

"Dr. Davis spoke for several minutes in a general way, and dwelt upon the advantage of making use of every minute's time during the

"Dr. Davis of Chicago read an interesting an instructive paper upon Therapeutic Inconsistencies in Medical Practice,' in which he advised the total tabooring of stimulants and narcotics in all diseases, claiming that the bad effects of them more than equaled the sceming betterment of a patient's condition immediately after their use. . . . Dr. Davis was roundly applauded for his scholarly and pointed way of handling his topic."

A DIGRESSION-THE PICKPOCKETS HAVE IT.

How nice it would sound if 400 professional pickpockets should meet in a large hall and the olnest of their number (and too old to pick pockets with safety) should get up and say:

"Gentlemen, it is very wrong to pick pockets," and the others say with one voice: "Yes, it is very wrong." Old Member-"It is very wicked to pick pockets, gentlemen."

Chorus from the Others-"Yes, it is very wicked, to be sure." Old Member-"It is against the financial condition of those whose pockets we pick, gentlemen." Chorus Other Members-"Yes, it is; that is a fact."

Old Member-"Gentlemen, I am overpowered with the brilliant idea.

that it becomes very inconvenient sometimes to those whose pockets we Chorus, Other Members-"Yes, it is quite inconvenient sometimes." Then loud cheers, great applause, as the whole nest of thieves are greatly amused at the pointed manner in which the Old One puts it.

They then adjourn to pick pockets as before. But to resume We are comewhat surprised at the principles he advocates, but is not Dr. Davis a plagarist?

Has he not, at this late date, after Dr. S. Clay Tood, the famous specialist of Grand Rapids, Mich., has published the same ideas for thirty years, just now undertaken to gain a free advertisement, by lecturing before this medical society, against the use of stimulants and narcotics?

The public will find the same ideas in Dr. S. Clay Todd's advertisement for thirty years, and they have just been discovered by Dr. Davis, who has possibly been reading the Grand Rapids Democrat since be ar-

But it will be of no use to anyone but Dr. Davis. He can make what capital he can of it, by making the public believe he is a follower of Dr. 5. Clay Tood, and in no relation in principle or practice to his allopathic brethren; but his associates, the allopathic physicians, although they loudly applauded his remarks, cannot carry out his precepts, and do not intend to, as they could not practice an hour without the use of stimu-

Take them away and the Allopathists, or Regulars, as they call themselves, have nothing left; they would have to go out of business Stimulants and narcotics are the curse of the Allopathic practice

and show their effects on almost all their patients, and talking against them will not deceive the public. The fact is the Allerathic Practice is suffering from a rapid decline in the confidence of the dear people, and needs bolstering with some good talk and some decent principles, but simply trying to catch on to the coat tails of Dr. S. Clay Todd will not, alone, put them in a position

to cure diseases, which is what the public demands in a physician Dr. Davis leaves his associates in the same situation that Col. Bob Ingersoli does his hearers. Col. Bob tells them how they can escape religion, but gives them nothing to take the place of it.
